NEWS LETTER FROM STATE DEPARTMENTS

COLUMBUS.—Dr. Walter H. Hartung, director of the State Department of Health, issued a warning against swimming pools that confront the thousands of Ohioans who still swim in creeks, rivers, lakes and abandoned quarries. "Even under the best of conditions," Dr. Hartung said, "there are a few 'dons' that every swimmer should follow. They are: Don't go in the water for at least an hour after eating; don't swim alone; don't swim too far out; because the return trip is the same distance; don't dive unless you are sure of the depth of the water; and by all means, don't stay in too long." He pointed out that Ohio, like most other states, has gone in heavily for regulated swimming pools, which have life guards and other safety features but that a large percentage of the population still swim in natural waters. "Remember, too," he warned, "that even a swimming pool unless equipped for the constant renewal or recirculation of water and for filtration and chlorination, may soon become unfit for its intended purpose, and even if so equipped, it is not properly maintained, it still may be unfit for swimming."

The state bridge commission announced a slash in truck tolls on the Sandusky Bay bridge which the state purchased about two years ago and which will become toll-free when the bonds issued to finance its purchase are redeemed from toll revenues. In specific cases, the reduction for trucks will range as high as fifty per cent, the commission related. It is thought that the toll reduction will result in increased income due to the fact that more trucking operations will be carried by the bridge. When the bridge came into possession of the state a toll reduction was made both for trucks and passenger vehicles. Several hundred thousand dollars worth of the original bonds have already been retired, the commission revealed.

"Ohio state health program," this was the assertion made by Dr. J. H. Upham, dean of the college of medicine at Ohio State university and former president of the American Medical Association, following the conclusion of the Ohio School Health Institute at the university. The institute, the first of its kind in the United States, was attended by nearly 500 Ohio educators, physicians, dentists, school nurses and representatives of parent-teachers organizations. Dr. Upham, in the keynote address, said that a comprehensive school health program is an important factor in reducing juvenile delinquency. "Pupils often develop a dislike for school because of physical impairments which in many cases could easily be corrected if detected when they first started their education," Dr. Upham asserted. "These impairments often result in a feeling of inferiority and may lead to a life of truancy and even crime."

Chairman Frank Miller of the Tax Commission of Ohio announced that the commission last week approved fifteen applications for submission to the voters at regular and special elections the question of the issuance of bonds outside of the tax rate limitation. The majority of the applications were made by boards of education of rural school districts. The amounts involved ranged from \$10,000 to \$250,000, Mr. Miller said.

On a report covering the first five months of the current year, Miss Elaine W. Sheffield, superintendent of the division of minimum wage, disclosed that as a result of 4702 separate investigations a total of 1018 employees were paid a total of \$22,153 in back wages. Since the first of the minimum wage codes went into effect in January, 1935, \$48,448 has been restored to employees whose employer paid them less than the minimum established law, according to Miss Sheffield.

COUNCIL MEETING MONDAY

Village council met in regular session Monday evening at which time the usual bills were approved and ordered paid. Mr. Walter Cummings was absent, being in Michigan on his vacation.

Former Broker Withholds Plea

James R. Reed, 40, of 32 High St., Dayton, a former broker, withheld his plea to an embezzlement charge when arraigned Wednesday before Municipal Judge F. L. Johnson, Xenia, who fixed bond at \$500 and assigned the case for a preliminary hearing July 23. He was jailed in default of bond.

The affidavit was filed by Margaret Milroy, Dayton, formerly of Cedarville, who last fall gave Reed an order to sell 26 shares of stock and now charges \$515 of the proceeds was fraudulently converted by the former broker to his own use.

Attorney Marcus McGallister, retained as defense counsel, asserted his client was an innocent victim of circumstances in the stock transaction. In behalf of Reed, the attorney asserted the \$515 was not embezzled, that his client turned the stock over to a brother in Albany, N. Y., and that the Albany brokerage firm later went into receivership. This tied up proceeds of the stock sale, although \$200 of the amount due the former Cedarville woman has been paid, the attorney claimed.

Repairs Made At Fairground

In preparation for the 99th annual Greene County Fair the first full week in August, numerous improvements at the Xenia fairgrounds were disclosed Wednesday by Mrs. J. Robert Bryson, fair board secretary. To ease congested conditions during four day and night exposition, the board has leased a seven-acre tract on the west side of the fairgrounds for use as an automobile parking lot. The floor beneath the grandstand has been cemented, a metal ceiling has been constructed and the space will be partitioned off with screening for exhibit booths.

The dining hall in the rear of the grandstand has been remodeled by slicing 52 feet off the entire front of the building and moving this portion at right angles.

Election Board Faced Ballot Bid Contest

When the Greene County Board of Elections received bids for the primary election it was found the Aldine Printing Co., was lowest of three bidders but that the bond as required by law was not witnessed. The Eckler Printing Co., was next with a bid of \$168.07, about \$40 above the other bid.

An opinion of Prosecutor Shoup was sought and he held that while the law required a signed bond the matter was technical. The board was unanimous in holding for requirements under the law and sought the opinion of Secretary of State Kennedy. He was not in his office and as the matter stands the Eckler Co., will get the contract.

Fourth Was Noisy Before and After

While most towns and cities in this section restrict the sale and use of fire crackers and Fourth of July explosives to the one day, local celebrants started last Wednesday and kept it up daily until early Tuesday morning.

The fact that some 800 persons lost their lives and several hundred were injured over the vacation period, only about half losing their lives by fireworks, sentiment is increasing and before another year it is expected the legislature will outlaw all fireworks other than for patriotic demonstrations and then under strict supervision. Cedarville is the only town around here that is wide open on the sale of fireworks.

To Seventh District Republican Committeemen

(EDITORIAL)

During the campaign and following the regular election in November 1936, many times allusion was made to the inactivity of the Republican county executive and central committee, this being particularly true in Greene county. As a result the Republicans lost several county offices due to an aggressive committee for the Democratic nominees.

There are some things members of any party committee can do and some things that cannot be done, especially when one is asked to do something for a candidate, who if elected will receive compensation for his efforts, while the committeemen very frequently in the past ten years in this county has not even received thanks. Any reflection that has been made against Republican committeemen in county is not warranted when all the facts are known. Two years ago little effort was made for the election of all the candidates and all attention seemed to be centered on the contest between L. T. Marshall, R., and Arthur Alechire, D. The latter carried Greene county, including ten of the thirteen precincts in Xenia city and yet never was in the county to personally supervise his campaign. Two years ago D. C. Pemberton, Columbus lobbyist, Ed Schorr, Republican State Chairman, were behind L. T. Marshall as they had been in his first two campaigns as well as when he was elected State Senator. More than that Mr. Pemberton furnished Marshall campaign funds as did Mr. Schorr two years ago. In those days everything was lovely and the "goose hung high" between the three. Then something happened and there was a break between the lobbyist and chairman and L. T. Marshall, which startled more than one who knows Seventh District politics and what has happened in the past. Mr. Marshall all of a sudden began to campaign against the danger of Pemberton and Schorr in Seventh District politics, using language and making charges such as the Herald has used for many years the three were "hay-makers" together. Our curiosity was aroused to the sudden change of heart on the part of Marshall, whose present political virtue was pictured as "snow white" by his feminine sponsor, Miss Margaret Baker, of Springfield. As we have announced at times following the break of the old set-up, we were determined to unearth for the benefit of the public the reason why. We first endeavored to get a copy of Marshall's expense account as required by federal and state law, but no such account was ever filed with the Secretary of State, George S. Myers, who on December 6, 1936, according to records in the State House, called Marshall's attention to the fact that he had not filed and another blank was enclosed. Both the letter and blank have been ignored to this day.

To refuse to file a return implies one of two things, personal estimation of oneself to be above the law, or the expenditure of funds or receipt of funds contrary to law. Evidently the penalty under the law for failure to comply, \$1,000, or imprisonment not more than one year, or both, was not enough for Mr. Marshall.

As we have announced at times following the break of the old set-up, we were determined to unearth for the benefit of the public the reason why. We first endeavored to get a copy of Marshall's expense account as required by federal and state law, but no such account was ever filed with the Secretary of State, George S. Myers, who on December 6, 1936, according to records in the State House, called Marshall's attention to the fact that he had not filed and another blank was enclosed. Both the letter and blank have been ignored to this day.

Investigation in this county proves that this sum was never turned over to the Treasurer of the Greene County Committee nor was it reported either by L. T. or J. Carl Marshall or the Treasurer of the Committee to the Secretary of State, the Clerk of the House of Representatives in Washington or the Greene County Board of Elections as required by law.

Each election when congressmen are to be chosen the Republican National Committee usually aids in the campaign expense for each Republican candidate. Various sums are donated usually as much as \$2,000 for a district of this size. As no report was filed by Mr. Marshall the amount is in question until fully verified by the National Committee.

We are not aware of the financial condition of the Republican committees in the various counties in this Seventh District but we do know that the local committee has been hard pressed the past few years and that people of means that formerly were liberal have in recent years refused to aid the committee. For this reason the committee has resorted to stage of inactivity and individual members would not and could not be expected to sacrifice their time for naught when in years past members always received some little compensation. If committees in other counties have not been given financial aid in the past by Mr. Marshall, a three time candidate, they might be surprised by this time just why there has been a break between D. C. Pemberton and Ed Schorr and their old associate.

Certainly a candidate for congress that draws \$10,000 a year salary with 10c a mile for travel that costs but three cents a mile, should be able to finance a campaign and at least recognize the efforts of individual members of the committee. Marshall in his two terms drew a total salary of \$40,000, making his family a strong competitor of the Roosevelt family for nepotism honors.

Max Marshall, son of the ex-congressman, drew a total of \$14,928.00 as secretary to his father, and Helen B. Spahr, stenographer, a salary of \$1,268.00 yearly. According to the Xenia Gazette, Max Marshall was connected with an air plane corporation in Maryland during most of the time his father served in Congress and his frequent trips to and from Xenia and taxi trips for friends during the time Congress was in session indicated that he held two jobs at the same time.

Members of the Republican Committee in Greene county can see for themselves that they have been "jipped" and party supporters have had justified reasons in not giving the committee financial aid when campaign funds from the Republican State Committee were never turned into the Greene County Republican Committee treasury.

KILDOWS WIN SALARY SUIT IN COURT

Judge Charges Evasion in Decision and Holds Legal Advice Was Not from One Constituted by Law Sustains Civil Service in Suit by Reversing Salary Order.

Judge Frank Clavenger, Wilmington, who heard the suit of Mr. and Mrs. A. E. Kildow, against the County Commissioners, to restore a \$600 salary cut for the superintendent and matron of the County Home, placed the officials under a mandatory injunction.

The court held the two Democratic commissioners, James H. Hawkins and Howard L. Baldorf, as a majority of the board, had ordered the salary reduction without giving notice to the defendants as required by civil service law.

The decision quoted from the testimony of Prosecutor Marcus Shoup that he had not been consulted in any way about the action of the decision, although the official is a legal advisor of the commissioners. Prosecutor Shoup stated that he knew nothing of the action until he read of it in local papers.

The court declared that "the facts as disclosed by this evidence forces the court to conclude that the motives behind the acts of these two commissioners were to accomplish by evasion what they had failed to accomplish in open hearing."

"If they took any legal advice it was not from the one constituted by law to give it to them. Their actions were so crude the court doubts if they took legal advice of any kind. They ignored the plain requirements of the law, and their acts fairly bristled with 'partisanship.' Commissioners Hawkins and Baldorf have repeatedly denied the 'politics' charge."

(Homer Henry, Democratic attorney, appeared in court as attorney for the board in the Civil Service suit. By appointment of Gov. Dawey Henry is now Probate Judge.)

The evidence, also disclosed the \$600 so taken from the salaries of the plaintiffs and added it to the allowances for deputies in the Probate Court and Sheriff's offices, the occupants of both such offices being of the same political persuasion of said two Commissioners.

"The court regrets to make this finding," Judge Clavenger added, "but the evidence compels it. This court is a believer in the civil service. If carried out in the spirit intended it will eliminate politics from public service, and give the public that type of service it has a right to expect."

"A good many public officials—and they are not confined to one party—seem to think the civil service law was intended only to test the subtle powers of evasion a public appointing power might have. The only way to correct that idea is to promptly reverse the acts of such officials when they are presented in court."

"The finding will be in favor of the plaintiffs with a mandatory injunction to restore said salaries as they were, beginning with January 1, 1938. The county to pay the cost."

Dr. Arthur E. Morgan Files Suit for Post

Dr. Arthur E. Morgan, Yellow Springs, who was kicked off the Socialist TVA board to please the "liberals," has filed suit in U. S. Court in Knoxville, Tenn., to regain his seat and asks for payment of back salary since March 22, 1935 and salary to the end of his appointed term in 1942. The investigating committee appointed by Congress is packed against Morgan, regardless of the fact Sen. Vic Donahue, D., Ohio, is chairman. The committee has already placed the detail in the hands of a Philadelphia Socialist.

First Wheat Reports Show Good Average

The first wheat brought to the three local elevators shows a variance in moisture test and in some instances an unusual yield per acre. Frank Croswell test in the Miller Corry crop Tuesday which tested 80-80 pounds with moisture from 14 1/2 to 16 per cent.

LUMBERMAN'S PRAYER—"GOD SAVE OUR KING"

Harold Ickes, Secretary of Interior, former Chicago real estate agent, spoke in the New Deal wheel, mouth-piece for King Franklin, took the day following observance of our Day of Independence, back to the days previous to 1776 with the following edict:

"The price of all building material must come down in keeping with lower prices for steel."
With such an edict from one high in authority, backed by King Franklin, we imagine we can see the lumber dealers in good old Greene county in a gathering in answer to the King's decree, and with eyes directed whence comes Eternal Light, hands uplifted in supplication, all chanting in unison the immortal refrain.

"GOD SAVE OUR KING"

In the name of Harold Ickes, Henry Wallace,
John L. Lewis. Amen!

SOCIAL SECURITY FOR FARM LABOR

The Associated Press dispatch Monday that Roosevelt would place social security legislation on his "must pass list" for congress, was received in farm circles with mixed views. The social security board some weeks ago recommended to Roosevelt that farm and domestic labor be included in the New Deal program.

To enforce the farm labor program whereby farmers would be compelled to pay one per cent of all wage payments to the government as well as deduct a like amount from the wage each week as the farm laborer's share, and remit both amounts to Uncle Sam, would require certain new legislation by each state. To force states to pass the necessary laws, whether farmers want them or not, the New Deal would withhold agricultural adjustment payments.

With this legislation comes the first step in improving the condition of farm labor both in the north and south, the next is to be the wage and hour law for all farm labor. Certainly, farmers that are paid government money for not producing crops can have no valid objections to contributing social security aid for farm labor on the same basis as manufacturers, merchants and all classes of professional help. Farm labor is just as much entitled to benefits as other organized or unorganized labor.

GREENE COUNTY HISTORY BROUGHT DOWN TO DATE

Considerable publicity has been given the plan to "farm indigent children" in Greene county to worthy citizens as if the plan was something new. We were amazed that even the Greene County Ministerial Association would bite on the plan and give endorsement which was only intended as a gesture for Democratic politics on the part of Probate Judge Homer Henry.

What the good ministers publically endorsed was nothing more than what had been done in the county under former Probate Judge S. C. Wright for twelve years. It has always been a policy of every probate judge we have known the past thirty-eight years to handle juvenile matters with the utmost secrecy. Hundreds of children have been placed in homes as provided by law but no brass band was ever used to herald the method to the public.

Some days ago Hugh Turnbull, Jr., Cedarville Twp. Trustee, handed us an old record as found in the office of the Township Clerk's office. On the first page we find a record of the proceedings of the Directors of the Greene County Infirmary under date of March 31st, 1852, who "farmed or boarded out" one Julian Kinney, a pauper or poor girl, four years old, to remain until she is of age in the custody of Samuel McHatten. Said McHatten bound himself to give his ward two dresses when she became 18 years of age, one of silk made in fashion; bed and bedding to the value of \$30; and one pocket Bible. The Infirmary Directors were Samuel Crumbaugh, Samuel Puterbaugh and Benjamin Maner.

Thus we have the record of what happened away back in 1852 and a similar record more in keeping with our mode of living has been followed as we passed through the years. A political stunt was staged by Henry and the ministers roped in on an endorsement as if a new social order had been hatched in the north-west corner of the first floor of the court house.

Under the New Deal code what would Judge Henry order in place of the "Bible" as was required in 1852?

To be Rooseveltian the Judge would have to include a keg of beer with one or more syphons and an instruction book on how to dance the "Big Apple" when the King celebrated his birthday; and swear allegiance to John L. Lewis.

LAW AGAINST SPARE TIRES

The present tax law which penalizes, through the undistributed profits tax, a conservative, and thrifty industry for building up a reserve against hard times is like a law taxing an automobile driver for carrying a spare tire to insure uninterrupted operation.

A taxation or legislative policy which discourages and destroys industry, gradually sets the stage for advocates of state socialism to claim that private enterprise has broken down and that government must step in and operate the affairs of its citizens.

It seems fantastic that such a program is being deliberately promoted here. But that idea is growing in the minds of persons who have watched the current world trend to submerge the individual under government dictation, and the increasing drive to constantly inject government into business, and farming and into the affairs of private citizens in our own country.

Before the great throng at Gettysburg, July 4th, Roosevelt said: "The Nation is dedicated to the good of the greatest number." Interpreted under the New Deal code the revised version reads "the greatest number of Roosevelt." For instance Jimmy, the insurance broker, and first assistant president.

The Scripps-Howard papers in Ohio are conducting a straw vote. A truck visits cities and towns and voters must enter the booths on the truck to vote. The early returns give Sawyer the Democratic nomination for governor. Bulkeley leads George White for senator. The sensation is the result of the poll on "Would You Vote for Roosevelt Again?" The answers are 4 to 3 "No" on the Tuesday returns.

Indiana's Gov. Townsend had to send out the SOS call for aid to save the state Democratic ticket irrespective of the Roosevelt order to defeat every Democrat Senator that opposed the court packing plan. Sen. Van Nuys, D., opposed the court packing plan and was read out of the Democratic party. Wednesday, the Democratic convention, nominated Van Nuys irrespective of Roosevelt's order.

Roosevelt left New York state as governor with a debt of \$100,000,000. Gov. Lehman, who Roosevelt once called "my right arm," paid the last of that debt on his third term last week and now has a surplus of \$5,000,000. Roosevelt has turned against Lehman, who will run for Senator to help check reckless spending in Washington. The Democrats have the honor of giving the nation the first president that has a legal guardian in a trust company, created by his father and to last his natural lifetime. Aint that sum-thing!

Ten months ago Congress started the wheels on a census of the unemployed in the country and we have just received a final report under John J. Biggers, Toledo, who headed this federal project. The report we have at hand is about the size of the standard business letter head and contained 17 printed pages of tabular matter. It is the product of the government printing office and the lowest estimate on cost would be about 50c per copy. But that is not all the record if conditions then and now are so different the report is out of date. Each month since the work of registering the unemployed started the numbers has grown, making the work of the census almost a useless product even for statistical purposes.

Leading farm publications like "Ohio Farmer," "Breeders' Gazette," "Prairie Farmer," "Indiana Farmer" are certainly out of tune with the New Deal AAA as all four publications question the present crop control bill. But then they could be wrong with See, Wallace, one time owner of "Wallace's Iowa Farmer," inherited from his father, on the right side. The difference between the owners of the first four farm publications and the one time owner of the latter, is that the bankers purchased the Wallace outfit at sheriff sale. The "Prairie Farmer" recently conducted a poll of Illinois corn farmers and it was found 56 per cent completely ignored the Russian regimentation of farm crops.

Unless the fate of the weather man is not favorable to prospects for a corn crop, some plan may have to be unfolded to control the farmers and not the crop. Some days ago we took a trip into some of the counties south of us that are recognized for corn crops. Between this place and James-town and on to Sabina we doubt if you can find blimmer prospects for a corn crop. Fayette and part of Pickaway counties on to Madison and Franklin and only four crops could be found that we considered on par with crops such as can be found on the J. C. Townsley and Clayton McMillan farms on the Columbus pike. There are twenty-five fields of corn ankle high on that trip, and most of these yellow with gold, to one that is knee high. There is a good prospect for an oats crop for few that had courage to seed this past spring in the face of adverse weather conditions.

Two announcements this week from national Democratic sources are probably more important than they seem on the surface. It has been known for two years that Vice President Garner has openly disagreed with Roosevelt on many economic and political problems and that he took a hand in killing the Roosevelt court packing plan as well as the reorganization bill. Roosevelt is angry at the south over some legislative procedure in the 75th congress and he attacks the manner in which the south handles economic matters. The next day Garner through Sen. Logan, D., Kentucky, said that he would not be a candidate for a third term and was mentioned as a possible candidate for the presidency on the Democratic ticket. Recently Sen. Barkley announced that whether Roosevelt sought a third term, the New Deal

would change his successor (and it would not be Garner). It will be interesting to follow events south of the Mason and Dixon line since the Roosevelt announcement Tuesday.

Gov. Davey for president of the Ohio State University got premature announcement by a weekly magazine, if such has been in the making. Some months ago the Governor named a number of college professors to make an investigation of the state highway department, method of contract and purchase of supplies. It was stated the professors were holding their report until after the August primary but when Time magazine let loose the presidential story, the professors got busy, turned their report loose to burn its way into the Ohio individual pocketbook. The professors were about as good as smearing the Davey administration as were the Senate "hatchet-men." The gist of the story was that if Davey was defeated for nomination, the four members of the OSU board he had named would vote for him for president of the institution.

Strickland Gilliland, noted lecturer and author, in speaking before the Cincinnati Rotary Club said: "The Barnum-Ringling Circus closed for the season because it can't stand competition of the Roosevelt family circus." Roosevelt in his last fire-side chat assumed the role of "Dr. Jekyll and Mr. Hyde." One minute he was President

and without changing his hide the next he was head of the Democratic party and tried all the liberals, Socialists, Communists and New Dealers to stand together. That is what you call doing to the Democratic party when "Teddy" did for the Republican party in the Bull Moose campaign. We are now in a campaign of a Roosevelt trying to outdo his cousin. And he, (FDR) is doing a master job of it.

FEDERAL AGENTS RAID

Federal authorities raided the Allen family near Shady Grove, Wednesday, for dealing in untaxed alcohol. A number of Dayton and Springfield agents were arrested and Charles Roundtree, 49, negro, Xenia, was taken to Columbus for questioning in connection with the ring.

Miss Elsie Post has taken over the management of the Abigail Iles Room at Lakeside, O., on Lake Erie. She will return in September to resume her duties as teacher in the Clifton school.

Mrs. Elizabeth Townsley, who resides with her daughter, Mrs. Carrie Townsley, will celebrate her 92nd birthday in a very quiet way, Friday. Mrs. Townsley enjoys good health but is handicapped with defective hearing. She spends most of her time sewing. Her many friends showered her with birthday cards.

The Birth of a Baby

"Birth of a Baby," the picture which is the talk of the entire world, and whose attendance records have completely skyrocketed records of previous motion picture successes such as "Birth of a Nation," "Snow White and the Seven Dwarfs," "Robinson Crusoe," "Test Pilot," has been scheduled for a five day engagement at the Xenia theater, beginning Sunday, July 10. Photographed and revealed to the general public for the first time by a major film company is the actual birth of a baby. This unusual picture which follows an expectant mother through the various stages of her pregnancy to the scenes of the delivery of the child, climaxed by an actual close-up of a childbirth, is presented by The American Committee On Maternal Welfare.

PLEASE!

NEW YORK—In the World of Tomorrow, there will be no such harsh, forbidding signs as "Keep off the Grass." At least the New York World's Fair 1939 has already introduced, on the Fair grounds, signs reading merely "Please." The young lady in the picture, Miss Betty Rafferty, is regarding the sign with genuine pleasure.

"I never liked those signs 'Keep off the Grass.' It is certainly a happy and considerate thought to use the one word 'Please.' Surely the public will both understand the meaning and will appreciate the friendliness of the request."

CALEB: LIFE-TIME DEVOTION

LESSON TEXT—Joshua 14:6-15.
GOLDEN TEXT—Let us go up at once, and possess the land we are able to overcome it—Numbers 13:30.

PRIMARY TOPIC—Caleb the Brave.
JUNIOR TOPIC—Caleb the Brave.
INTERMEDIATE AND SENIOR TOPIC—A Hero's Reward.
YOUNG PEOPLE AND ADULT TOPIC—Courage for Difficult Tasks.

"We need to know more about good men who are occasionally great, and less about great men who are occasionally good," says the Lesson Commentary, in pointing out that Caleb is one of the characters about whom the Bible does not say much, but in every case the word is one revealing high and noble character. Consider such messages as Numbers 13:6, 30; 14:7-9, 24, 30; 28:65, as well as our lesson for today.

The background for our study of today, and in fact an integral part of the lesson itself, is the story of Caleb's courageous stand with Joshua when the spies returned from their visit to Canaan, which is related in Numbers 13. He was then a comparatively young man, but demonstrated by his every word and deed that he had from his youth learned to know and obey God.

Note first of all Caleb's

I. Perfect Obedience (vv. 6-8).

"I wholly followed the Lord my God." Such a testimony from a man like Caleb is no idle boast, no effort to parade his faith and piety before others. In saying it he was repeating what God and Moses had both said about him. In his heart he knew it to be true.

It is God's will for each of His children that they should come to such a place of simple trust and complete obedience that in every circumstance of life they need know only one thing—God's will, and then in faith to go and do it. It is a life beautiful in its transparent simplicity and powerful in the strength of God Himself.

II. Promised Inheritance (v. 9).

"Surely the land whereon thy feet have trodden shall be thine inheritance." Such was the promise of God through Moses. Forty-five long years had passed, but down through this period of wilderness wanderings and the conflict in subduing Canaan the promise had lived in Caleb's heart. He knew it would be fulfilled, and he waited serenely for God to fulfill it.

Such also are the promises of God which keep the heart singing in our hours of trial and sorrow, which light up the dark ways, which strengthen the heart of His children. Lean God's promises, cherish them in your heart, expect God to fulfill them.

III. Preserved Strength (vv. 10, 11).

"The Lord hath kept me alive . . . and I am . . . strong." Here was a man kept of God, in full vigor in his eighty-fifth year, "like a rock in a changeable sea, like a snow-capped peak in a change of cloud and storm and sun" (Meyer). No doubt there was what our forefathers liked to call "the longevity of the antediluvians," but even apart from that let us recognize that life and strength come from God, and that those who walk with God in holy living may count on Him for the renewed strength of Psalm 103:5.

An incidental, but extremely important, lesson, we should learn is that God has no age deadline. The church has frequently sinned against Him and against His faithful servants by "casting them" for younger men, when they would have brought blessing to themselves and to the church by encouraging and using them. The writer of these lines is a young man, but he would speak here a word of loving admonition regarding his honored brethren who have gone on before to bear the brunt of the battle.

IV. Powerful Assurance (vv. 12-15).

"If . . . the Lord will be with me, then I shall be able." Caleb asked for no easy task. He was ready to go up against the giants of Hebron. Read Deuteronomy 3:11, and you will find that there were men in those days who needed thirteen-foot beds. But Caleb was not afraid. He counted not on his own strength, but on the power of God. It is significant that while the other sections of Canaan were only partially conquered Caleb brought his formidable adversaries entirely under control, so that "the land had rest from war" (v. 15).

The spiritual application to our day is evident and appropriate. There are giants in the land in this year of our Lord 1938. Corruption—social and political—raises its brazen head. Drunkenness and vice leer at us with the impudent suggestion that we cannot control them. There are giants "within us"—greed, selfishness, love of ease, lust, passion, cruelty" (Blaikie). Are we to do nothing about them?

If we are to meet them in the strength of the flesh we might almost as well do nothing. But in the power of God, we are like Caleb—able. In His name we may take up a slogan of today, "Let's do something about it!" and really do it, for His glory.

WHEAT AROUND 60c BUSHEL

Wheat during the week has dropped from 60c to around 58c in the local markets. Few farmers are selling outright. Most everyone is storing wheat in elevators or holding it on the farm for feeding. Most farmers say there will be no chance for a higher price when the government has fixed 60c a bushel for loans.

CEDARVILLE LUMBER COMPANY

A Message To The Voters From Albert L.

DANIELS

REPUBLICAN CANDIDATE FOR

**STATE
SENATOR**

Fifth-Sixth
Ohio District

Clinton, Fayette, Greene,
Highland and Ross Counties.

Since the announcement of my candidacy for the Republican nomination for State Senator in the Fifth-Sixth Ohio district, composed of the counties of Clinton, Fayette, Greene, Highland and Ross, there has been insidious and stealthy effort on the part of certain individuals to create the impression that my candidacy does not have the approval of Republicans over the district. This crafty propaganda also seeks to emphasize THAT I DO NOT HAVE THE SUPPORT OF MY HOME COUNTY (Highland).

Since the filing of my declaration of candidacy and nominating petition, I HAVE RECEIVED AN ENDORSEMENT OF MY CANDIDACY, SIGNED BY FORTY OF THE FORTY-TWO MEMBERS OF THE REPUBLICAN CENTRAL COMMITTEE, (including the Chairman and Secretary) AND BY THIRTEEN OF THE SEVENTEEN MEMBERS OF THE REPUBLICAN EXECUTIVE COMMITTEE OF MY HOME COUNTY.

It is an admitted fact that the so-called endorsement of the Republican Executive Committee of Highland County, which my opponent received (a very small minority supporting the motion) on September 23, 1937, WAS ENGINEERED THROUGH THE MANIPULATIONS OF D. C. PEMBERTON, OF COLUMBUS, OHIO, OF LOBBY NOTORIETY, AT A MEETING HELD IN A WASHINGTON COURT HOUSE HOTEL EARLY LAST FALL. WHY WAS THIS INDIVIDUAL SO INTERESTED ALMOST A YEAR PRIOR TO THE PRIMARY ELECTION TO BE HELD ON AUGUST 9, 1937? It is known throughout the district that this professional lobbyist is trying to secure someone to represent THIS GREAT RURAL DISTRICT OF OHIO, who will "GO ALONG" with his private desires in helping to handle state legislation IN THE WAY HE WANTS IT HANDLED without ANY CONSIDERATION FOR THE BEST INTERESTS OF THE PEOPLE. This is another example of the CITY LOBBYISTS AND POLITICIANS reaching down into the state districts and attempting to control the nomination of candidates WHO WILL PLAY THEIR GAME. These tactics have been having a damaging effect on party success for number of years. I am of the opinion, and believe that the people of this district and of my county WILL AGREE, that ANY MAN OR WOMAN who so desires, MAY BECOME A CANDIDATE FOR OFFICE and that IT IS NOT NECESSARY to get THE CONSENT OF CERTAIN INDIVIDUALS IN THIS OR ANY OTHER county, to represent the Republican party. The Republicans of this district do not want or care for any D. C. PEMBERTON IMITATION. They are qualified to SELECT THEIR OWN NOMINEE FOR STATE SENATOR, and I am certain that THEY WILL RESIST this "OUTSIDE" INTERFERENCE. It has been proven that THIS KIND OF A LOBBY IS TOO HEAVY TO CARRY IN THE GENERAL ELECTION CAMPAIGN.

I entered this campaign with pledges TO NO INDIVIDUAL, GROUP OR SPECIAL INTEREST, with only the desire to honestly represent the good people of the Fifth-Sixth district in the Ohio Senate to the best of my ability. I solicit the active support of all who desire this kind of representation.

Temperance Notes

Sponsored by
Cedarville W. C. T. U.

Emergency: One week before the summer season opened at Hamilton, Bermuda, the Castle Harbor Hotel applied for a liquor license. The law however, demanded three week's notice. When 175 hotel guests threatened to leave, the Bermuda Assembly rushed through a bill to issue a temporary license.

There is nothing upon which this modern age places a greater premium than efficiency. Historians in future ages will probably look back and call this age "The Efficient Age."

Socialists Oppose Liquor Ads
Socialist members of the British Columbia Legislature have started a strong drive to abolish all forms of liquor advertising in the province, a recent press report from Victoria, Columbia, states.

Judge Descends on Drinking Drivers
Drunken drivers were branded vicious enemies of society by Judge William O'Donnell of Rhode Island recently, according to the press. The judge classed drinking drivers along with gamblers, thieves, and vice racketeers, and said he favored severe punishment for these offenders.

The driver, of course, is unaware that his side vision is slowed. He gets set up, invigorated because of his weakened self-restraint. He is sure that he can drive better after a had a little drink.

Police Say Drinkers Hinder Safety
The St. Louis police department is concentrating on a drive against drunken drivers, as a great hindrance to its safety education campaign.

Playing With Fire
That is what the United States is doing in harboring the liquor traffic. Alcohol burns out the linings of the stomach and other organs of the citizen who drinks it. The traffic consumes the funds needed to clothe his family and at last clothes him in rags and sends him to drunkard's hell. The drink itself consumes his mental powers and at last leaves him a mental wreck. Where war kills its thousands drink kills its ten thousands; and yet American voters fawn upon it and give it right of way. Texas has just repealed its prohibition of the demon and Satan laughs.

Wets Get Tip-Off In Collier's
The main editorial in a recent Collier's magazine was given over to a "warning" on the critical state of the present liquor situation which may develop into a return of Prohibition if the members of the trade do not look sharp. A cartoon at the top of the editorial shows Lawlessness (personified) galloping on the back of the Liquor Industry (equinized) toward a sign bearing the warning: "DRY VOTES AHEAD."

This is no time to pussyfoot or soft-pedal on the liquor question or any other national sin but it is the time to "cry aloud and spare not."

WHY NOT MAKE MARRIAGE Practical?

Young people, on the border line of the greatest of all adventures—marriage—must consider the practical point of view.

For, after all, there will be meals to be cooked; hot water to be furnished; washing to be done and ironing to follow the washing.

The fact is, a modern home has a right to be, and should be, practical. This is made easy and inexpensive with Gas and Electrical Appliances.
